TRANSPORTATION INFORMATION

Rocks Hotel & Casino is located on the seafront in the city center of Kyrenia, a port city that has hosted many civilizations throughout history. It is 40km from Ercan Airport and within walking distance of Kyrenia Harbor. It is waiting for you to experience the best with its comfortable and renovated elegant rooms, friendly staff, spacious venues, and international cuisine.

Cyprus, the third largest island in the Mediterranean after Sicily and Sardinia, is located in the Eastern Mediterranean, where the trade routes of the three continents intersect. The total area of the island is 9,251 square kilometers and the area of the Turkish Republic of Northern Cyprus is 3,355 square kilometers. The closest neighbor of the island of Cyprus is Turkey, 65 km to the north. The island is also 112 kilometers west of Syria and 418 kilometers north of Egypt. According to 2014, the total population of the Turkish Republic of Northern Cyprus is 313,626.

Nicosia, the capital, is the largest city of the Turkish Republic of Northern Cyprus. Magosa and Kyrenia, which are located on the seafont, are other important cities. Güzelyurt and Lefke are two cities famous for their large citrus groves. The Turkish Republic of Northern Cyprus has a typical Mediterranean climate with hot and dry summers and mild winters. Most of the precipitation falls in November and March. In January, the coldest month, the lowest and highest temperatures are 9 °C - 12 °C on average. In August, the hottest month, the average minimum and maximum temperatures (in the shade) are around 37 °C - 40 °C.

Good Luck

In Case of Fire

WHEN YOU FEEL THE FIRE START

- Switch on the nearest fire alarm.
- Report to the hotel switchboard. "Extension: 0".
- If possible, leave the building.
- Don't use the lift.

LEAVING THE HOTEL AFTER HEARING THE FIRE ALARM

- Touch the door handle to check the temperature. If the door or door handle is very hot, do not open the door. If not, open the door carefully. Take precautions to close it again if necessary. Take the key to your room with you. Do not use the lift.
- If there is smoke in the corridor, move as close to the floor as possible. Crawl on your hands and knees.

IF IT IS NOT POSSIBLE TO LEAVE YOUR ROOM

- Switch off the air cleaning system.
- Inform the switchboard of your room number as "extension 0".
- In the first instance, avoid opening windows or breaking window panes.
- Tuck-soaked towels, curtains, and bed linen between doors and windows. Also, close air vents. You can use the rubbish bins in your room to collect water from the bathroom.
- If smoke enters your room, make a tent over your head with a soaked blanket.
- If smoke still fills the room, it may be necessary to open the window a little. If the windows will not open, break one with a chair. However, if smoke or fire is rising upwards from downstairs, avoid opening the window or breaking the panes.

FOR YOUR SAFETY

- You can identify the fire escape route and exit points from the plan and corridor signs in your room.
- We especially recommend our guests determine where the fire alarm and fire extinguishers are located.
